Fall 2011

Area Directors for Southeastern Europe

Currently throughout Europe there are fears of a global financial melt down. Every day riots and protests fill the news reports. Our countries in Southeastern Europe suffer greatly with an average of around 19 % unemployment. Greece seems to be the tipping point on the scale. The economy in Greece spirals downward as they try to bring years of social programs under control trying to meet the austerity requirements of the European Union so they won't default as a country. Yet each day pundits, news reporters and pollsters all seem to bring the same scary news each day of Global recession and financial chaos.

It's in this landscape and environment our missionaries live and minister each day. In spite of these challenges, sticking to our value of planting and training national churches to be self-sufficient and self-propagating is evident. For instance, in Romania many are being trained to be missionaries to the Muslim world, in fact they are raising 100% of their support from Romanian churches. In Albania the Bible school is sending interns to minister to Macedonia and Kosovo.

We are involved in bringing hope to the hopeless, peace to the fearful and salvation to those who are lost. These are exciting days in Southeastern Europe!
